

Below is a list of community service activities that will count towards membership to the Jackson High School chapter of the National Honor Society. Please note that any activity for which you receive credit or payment does not count as community service. In addition, any activity that is completed during school hours, or is mandatory for a club or team with which you have membership, will not be counted as service hours, but will contribute to the leadership portion of your application.

*\* If the community service activity you wish to complete does not appear on the list below, please speak with an NHS advisor for approval before submitting your application. If an activity appears on an application without advisor approval, those hours will not be added to your total.\**
