How to Log In through Clever to Reach Assignments on Polaris - KG/G1

Step 1: Go to https://www.jackson.stark.k12.oh.us/onlinelearning
Step 2: Choose "Log in with Clever"

Step 3: Choose "Login with Active Directory"
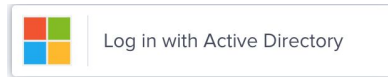

Do not erase "polarbear/" - type in your child's login code and password. Make sure there are **no spaces** between polarbear/ and the username! This should bring you to your child's Clever homepage. You'll see your homeroom teacher's page with links below to websites they frequently use in the classroom.
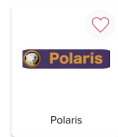

Step 4: Choose "Polaris"

This will bring you to the Polaris/Schoology login screen. Clever should recall your information already. If it asks you to sign in, re-enter your child's username and password. ==If it is stating that your information is invalid, make sure Clever didn't plug the beginning of the Clever login "polarbear/" on the Polaris/Schoology page. It should NOT have "polarbear/" as Clever requires.== Consider pressing "save" if your web browser prompts you so that you won't have to re-enter this information each time! :-)

Step 5: You will see at the top of the page this header: Choose "COURSES."

Step 6: Choose your classroom teacher's "HOMEROOM."

This is the only course you will ever choose, even though there are several different subject courses.

On March 30, you will begin to see assignments posted in this course!
