

Chain-Growth polymers (addition) - formed from unsaturated monomers:

Monomers:

1) ethylene

2) vinyl chloride

3) styrene

4) tetrafluorethylene

5) isoprene

Acrylic acid

6) acrylonitrile

7) Acryamide

8) methyl acrylate

9) methyl methacrylate

acetic acid:

10) vinyl acetate

11) isobutylene

12) hexafluoropropene

13) vinylidene chloride

14) toluene-2,4-diisocyanate

15) glycolic acid

16) lactic acid

17) 3-hydroxybutyric acid
