Notification of Jackson Local School Immunization Requirements

Dear Parents and Guardians,

Ohio Immunization Law requires that all students in grades kindergarten through 12 receive a minimum number of immunizations prior to school entrance. These requirements may be waived for medical, religious, or personal conviction reasons. Parents or guardians of students who do not meet these requirements or do not have an immunization exemption on file will receive written notification to alert them of their student's non-compliant status. Non-compliance means that a student is either "in process" for a required immunization or that no record or exemption is on file at school. Parents and guardians will be asked to provide updated immunization dates or sign an Immunization Exemption form. Parents or guardians will have fifteen (15) days to submit required documentation.

Parents or guardians of students that remain non-compliant will receive a second notification warning of exclusion. Exclusion means that students will not be allowed to re-enter school until the parent or guardian:

- (1) provides the month, date, and year the student received any missing immunizations, or
- (2) signs an exemption form.

The required documentation must be received within fifteen (15) days of this notice.

If a student remains non-compliant, the principal or school nurse will call the parent or guardian of the non-compliant student to pick up their child from school or provide immunization information that resolves the non-compliance. Students not picked up by the parent or guardian will spend the day in ADA (Alternate Day Assignment) and will be charged an unexcused absence.

If you have questions regarding school immunization requirements, please contact one of the district school nurses.
