

# Wanted Poster

Directions- Create a wanted poster for an organ of the body or disease. Draw on normal size paper. **One page only!**

Step by Step:

1. Choose an organ or disease of the body and write it neatly
2. Answer the following about your organ or disease:
  - What is its alias, or other name it goes by?
  - What is its size or how common is it?
  - How much money is it worth to locate or cure?
  - In which system of the body can it be found?
  - What are its main functions or symptoms?
  - What are three ways it works with other systems or organs to keep you healthy or cause damage?
  - What are three or more diseases or problems that may affect this organ or other diseases that are similar?
  - Can you donate this as a living or deceased donor or can another person get this disease from you?
  - Can a person live without this organ or is this disease deadly?  
Explain.
3. Draw or attach a picture of something that represents the organ or something pertaining to the disease on your poster
